MVR Common Questions

What is an MVR?

Motor Vehicle Registration (MVR) and vehicle Titles. Subscribers can search the Transportation Department's database to find who holds the title to a vehicle or who has registered a vehicle with the state.

How do I search for an MVR?

Subscribers can search for vehicle titles by name, Vehicle Identification Number (VIN) or full title number.

Do I need to know the exact name?

MVR searches are made by "last name, first name" and require the name to be "identical" to the name on the vehicle record. For example, if you search for a title under "Walter, Jeff" you will have zero results. If you searched for "Walter, Jeffrey" a match would result. An exact name search is key to a successful result.

What do the results look like?

Your search will present a list to pick from showing the title status, name, city, zip, year, make, model and VIN (last 6). If you see a registration or title you want to purchase click on the View/Purchase link. Your account will be charged \$5.50 for viewing the details.

Is the search certified?

After you purchase the title or registration you may request a certified or history packet be sent. This request will take 7-10 business days. ITD will charge your account \$9.50 for the certified packet.

Does my subscription give me access to MVRs?

If you are a DLR Subscriber your username and password will allow you to access the MVR service. Non DLR or MVR Subscribers only need to request and return a three page registration form to activate their MVR account.

The short form DLR/MVR agreement can be downloaded @ www.accessidaho.org/ai/subscription.html

Motor Carrier Services Continued...

ITD and the Idaho State Tax Commission have teamed up to offer a new online service to Motor Carriers.

International Fuel Tax Agreement (IFTA) filings and payments online.

www.state.id.us/tax/filing.htm

"Zero" filers welcomed. All calculations are done for you. If a return is subject to penalty and

interest charges, it will automatically calculate the amount due.

IFTA payments can be made instantly by Credit Card or by generating a Payment Voucher for inclusion with a physical check. If you have registered to make payments by ACH Debit, a link to Global Payments is provided.

View your IFTA filing history online for a period of one year. All filings previously prepared via the application will be there to improve your record keeping.

If you owe tax to any jurisdiction, you will receive a \$2 credit for filing your return electronically.

For questions on IFTA contact the Idaho State Tax Commission by phone toll-free at 1-800-972-7660, ext. 7830.

Unemployment Insurance Payment and Filing Online

Quarterly unemployment insurance filings and tax payments can be completed on line @ www.labor.state.id.us

This new web-based system allows employers to input a list of employees or upload a data file.

The system then calculates the taxes due based on the current and past returns that an employer has submitted.

Finally, the employer completes the filing by paying the Unemployment Insurance taxes with an electronic check.

To activate your account contact Access Idaho or download the registration form @ www.accessidaho.org/ai/subscription.html

If you have a helpful hint to share with other subscribers send it to jeff@accessidaho.org and we will publish it next news letter!
